

# Airport Directory

This Airport Directory is an alphabetical listing by state, city within state, and airport name of those landing facilities that are open to the public and have a hard surface runway **2500 feet** or longer. The data is listed in the following sequence:

1. City name (in capital letters)
2. Airport name
3. Airport identifier
4. Distance and direction from city
5. Airport elevation
6. Length of longest runway
7. Unicom frequency
8. CTAF frequency (If only one frequency is listed, unicom and CTAF are the same)
9. Latitude and Longitude of airport

If only the airport name is known, use the **Florida Cross Reference** in this manual to find the city name.

# Awos/Asos Listing

This Directory is an alphabetical listing by state and airport name of those landing facilities that are open to the public and have AWOS or ASOS available. The data is listed in the following sequence:

1. Airport name
2. AWOS or ASOS
3. Frequency
4. Telephone number

Use the Airport Cross Reference in this manual to find the city name if required.
